

Biography: Deanna Dunseith

Order Compliance Team
Compliance and Enforcement Division
Texas Commission on Environmental Quality

Current Position

Natural Resource Specialist IV on the Order Compliance Team, whose role is to help Respondents comply with the Technical Requirements of their Orders to get them out of enforcement and back into compliance.

Prior Experience and Education

Deanna received a Bachelor's of Science Degree in Marine Biology from Texas A&M University at Galveston and a Masters of Applied Science in Environmental Policy and Management from the University of Denver's University College. Deanna joined the TCEQ in 2012 as an Order Tracker in the Enforcement Division. Prior to joining the Agency, Deanna worked at the University Police Department as a Dispatch/Phone Monitor Supervisor at T.A.M.U.G., with rhinos and bald eagles as a Volunteer Zookeeper Assistant in Virginia, as a Substitute Teacher in both Virginia and California, created a spawning channel for a trout pond as an Ecologist in New Mexico, and analyzed chromosomes as a Senior Cytogenetic Technologist for eight years in both New Mexico and in California.
